

# Time is Money, Make More!

*Senox Services = Savings. Here's how:*

## 30 Minute Customer Pick Up

A crew hanging 500 feet/day at \$3.25/foot produces \$1625/day gross revenue. That equals \$203.13/hour (for an 8 hour day) and \$3.39/minute.

If your supplier cannot have your order ready in a timely manner, that's money and time you lose.

Senox will work hard to have your order ready for pick-up in 30 minutes, allowing you to get to the job to make money. Place your orders by phone or fax or come by your nearest Senox branch.

## 4 Hour Delivery

A typical V-8 pickup averages about 12 miles/gallon. An average fuel price of \$2.75/gallon costs you \$0.23/mile in fuel.

If you had to send a crew on a 40 mile, hour and half round trip to your supplier on a daily basis, here's what you stand to lose:
